ISO Standard 6743-9 Lubricating Greases - Status Report, Trabert, George R., January, 1992, (10)

General

Mathematical Model of Grease Flow in Pipes, Hardy, Bryant and Swartz, Charles, June, 1991, (3)

Novel Drill Pipe Thread Compound Gives Environmental Acceptability with Superior Performance, Stringfellow, William D. and Jacobs, Norman L., March 1992 (12)

Lubricating Grease - Manufacture

Development of Grease Production in Hungary, The, Kis, Janos, April, 1991, (1)

Lubricating Grease - Rheological Properties

Preparation and Rheology Properties of Filled Greases Prepared From Commercial Grease Using a Solvent Blending Method, The, Klaus, E.E., Duda, J.L., and Zarkalis, V.S., March, 1992, (12)

Rheological Approach for Testing Low Temperature Properties of Lubricating Greases: The PNV Concept, A, Lhoest, Jean Philippe, August, 1991, (5)

Lubricating Grease - Bearings

Clean Grease Can Add New Life to Bearings, McCusker, Susan A., August, 1991, (5)

Graphite and Lead Bearing Compounds Compared, Stringfellow, William D. and Jacobs, Norman L., December, 1991, (9)

Rundown Time as a Bearing Torque Indicator for Conveyance Rollers, Washo, Mike, September, 1991, (6)

Grease Starvation Lubrication in High-Speed Spindle Bearings, Wunsch, Fritz, September, 1991, (6)

Quality

Quality Control at Pemex, Nah-Chi, Victor, June, 1991, (3)

Environmental Issues

Biodegradable Lubricating Greases, Stempfel, Eduard M. and Schmid, Lucia A., November, 1991, (8)
